Section 1: Quick Space-Saving Wins

Go Vertical

Most homeowners forget about wall space above eye level. Floating shelves, tall bookcases, and wall-mounted cabinets can double your storage without touching your floor plan. It's the easiest win.

Ditch the Bulky Furniture

Oversized sofas, bulky dressers, and large dining tables are the #1 space killers in South Florida homes. Swap them for slim-profile pieces and multi-function furniture.

Use the Back of Doors

Over-door organizers on closet doors, bathroom doors, and pantry doors add storage without taking up a single square foot. Free real estate.

Mirrors Create Space

A large mirror on one wall makes any room feel significantly bigger and brighter. It's one of the cheapest space hacks that actually works.

Declutter First

Before you buy anything new, remove what you don't use. Most homes have 20–30% of their space occupied by things the owner hasn't touched in over a year.

The Real Game-Changer

These hacks help. But nothing transforms a room like a custom Murphy bed. One wall. One piece of furniture. Your room does double duty, every single day.

Section 2: Murphy Bed Sizing Guide

Size	Wall Width	Best For
Twin	42"	Kids, single guests, very small rooms
Full	59"	Single adults, teens, tight spaces

Queen	65"	Most popular — couples, primary guest rooms
King	79–80"	Larger rooms, couples who want maximum comfort

Which Size is Right for Your Room?

- **Under 10×10 ft:** Twin or Full wall bed
- **10×10 to 12×12 ft:** Full or Queen — most common in South Florida homes
- **12×12 ft and larger:** Queen or King with side cabinets

Section 3: Design Styles

Modern

Clean lines, flat-panel doors, minimal hardware. Usually in white, gray, or matte finishes.

Contemporary

A mix of modern and transitional — slightly warmer tones. This is the most popular style we install.

Traditional

Raised panel doors, wood tones, classic hardware. Works well in older homes with more traditional décor.

Custom Colors & Finishes

We build in melamine, MDF, thermal foil, and maple wood. If you have a specific color in mind, bring it to the showroom.

Section 4: Real Room Transformations

Spare Bedroom → Guest Room + Home Office

A 10×11 spare bedroom in a Hollywood home was being used as a storage dump. We installed a Queen Murphy bed with two side cabinets. The room now functions as a full home office every day and a comfortable guest room whenever needed.

Studio Apartment → Two-Room Feel

A Hallandale Beach studio was too small to have both a living area and a proper sleeping area. A Full Murphy bed installed on one wall gave the owner a full living room during the day and a real bedroom at night.

Living Room → Guest-Ready Space

A Fort Lauderdale homeowner had no spare bedroom for visiting family. A Queen Murphy bed built into the living room wall gave them a permanent guest room without sacrificing their living space.
